

IN CASE OF FIRE, FIT SAFFIRE

THE NEW OHLS CABLE RANGE FROM DRAKA

Introducing Saffire, the new range of OHLS cables from Draka. Manufactured to meet BS 6724 and BS 7211, Saffire provides the ultimate choice **SAFFIRE**^{OHLS} for specifiers and contractors who have fire safety as a priority in their installations.

In the event of fire OHLS (zero halogen low smoke) cables produce little corrosive gas and burn without omitting large amounts of dense smoke. These benefits make a significant contribution to protecting lives

and buildings. Plus with Draka's expertise in designing and manufacturing fire performance cables of the highest quality, it's reassuring to know that more people now trust Draka to deliver the cable solutions they require.

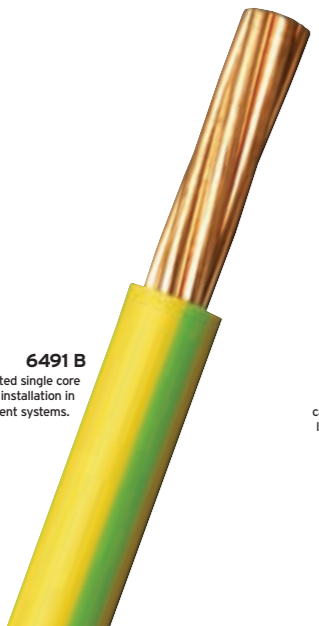

For further information on Saffire OHLS cables visit www.drakauk.com or contact your local Draka cable expert through the number below.
